

Cost Savings Benefits of Planned Maintenance for Repair Services

Did you know?

Repair & Installation Services market is projected to amount to 520 million in 2024. A compound annual growth rate of 8.48% is expected (CAGR 2024–2028).

- Address minor issues before they escalate into major failures
- Reduce emergency repairs and save on labor costs
- Have the necessary tools ready to reduce the time spent on diagnosis
- Plan maintenance visits prior and serve more clients

Planned Maintenance with Zuper FSM Software

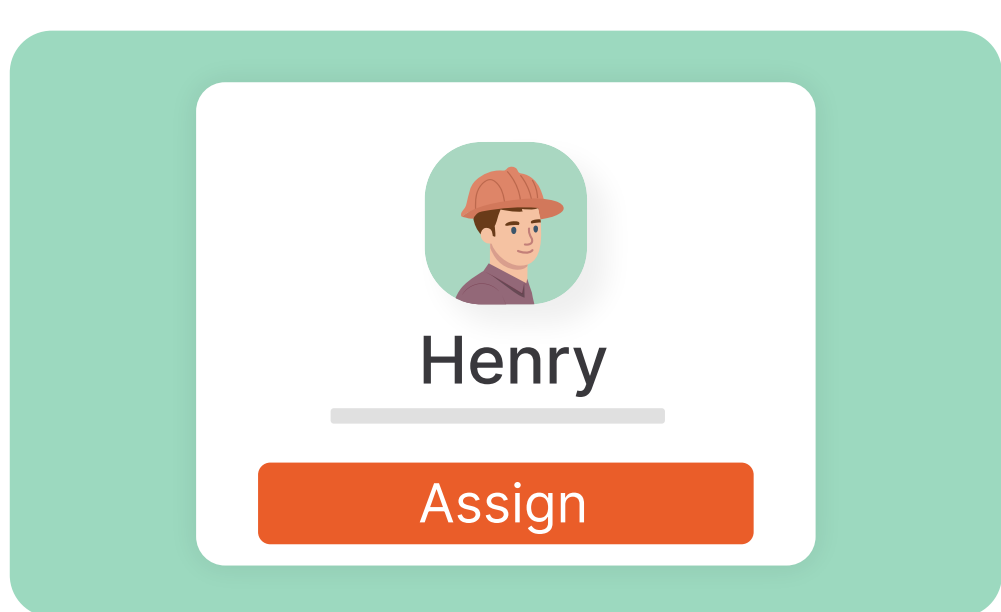

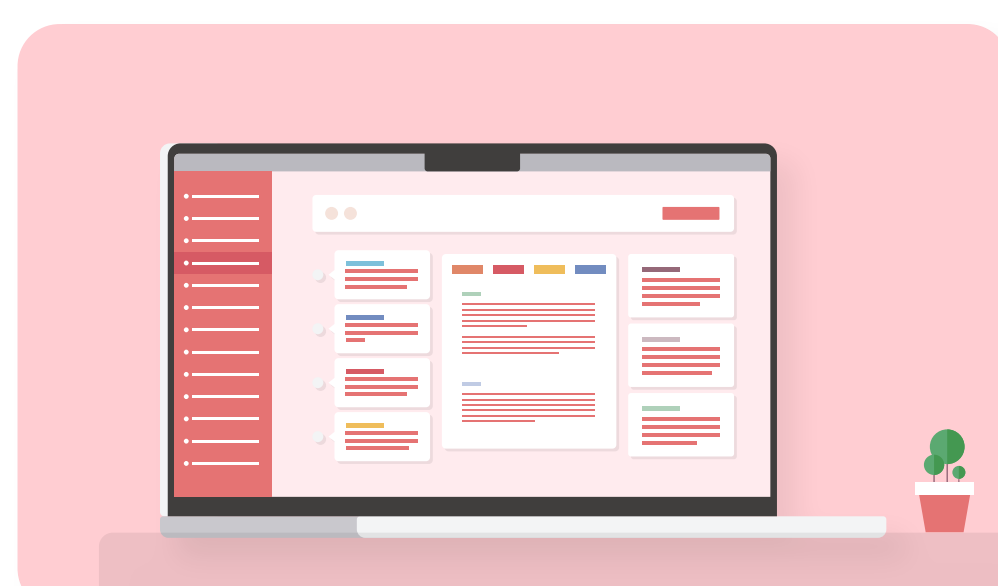

Automate scheduling

Set recurring maintenance based on appliance/equipment age, usage, or manufacturer recommendations

Simplify Work Orders

Create detailed work orders with specific instructions, required parts, and estimated completion times

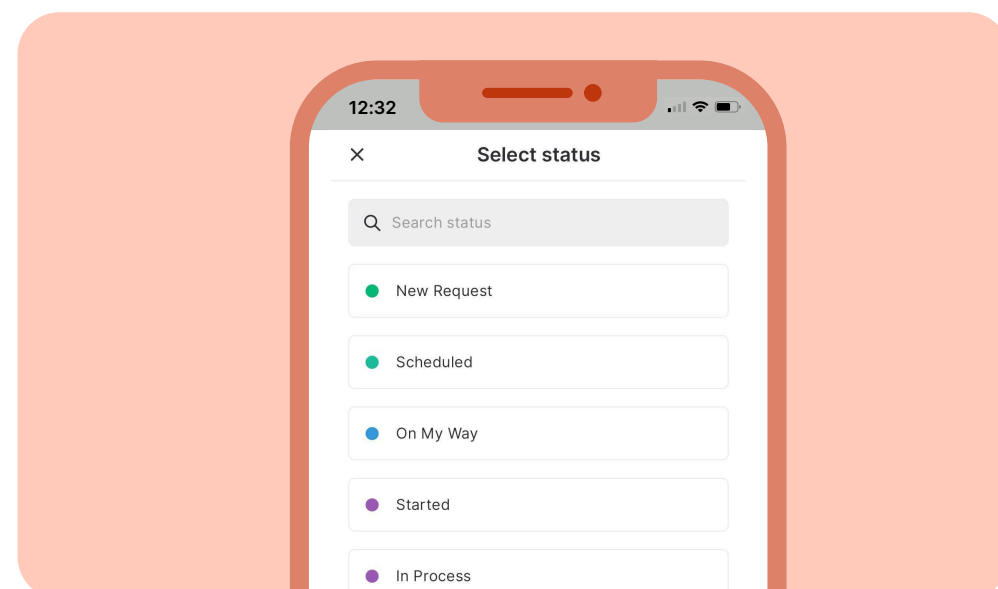

Technician Dispatch

Assign tasks based on technician location, skillsets, and workload, minimizing travel time and maximizing productivity

Real-time Update

Track progress efficiently with instant updates on task completion and technician notes

Clear Communication

Send automated reminders to both technicians and clients, ensuring timely service and clear communication

Optimized Routes

Optimize routes for multiple appointments, allowing technicians to service more clients in less time

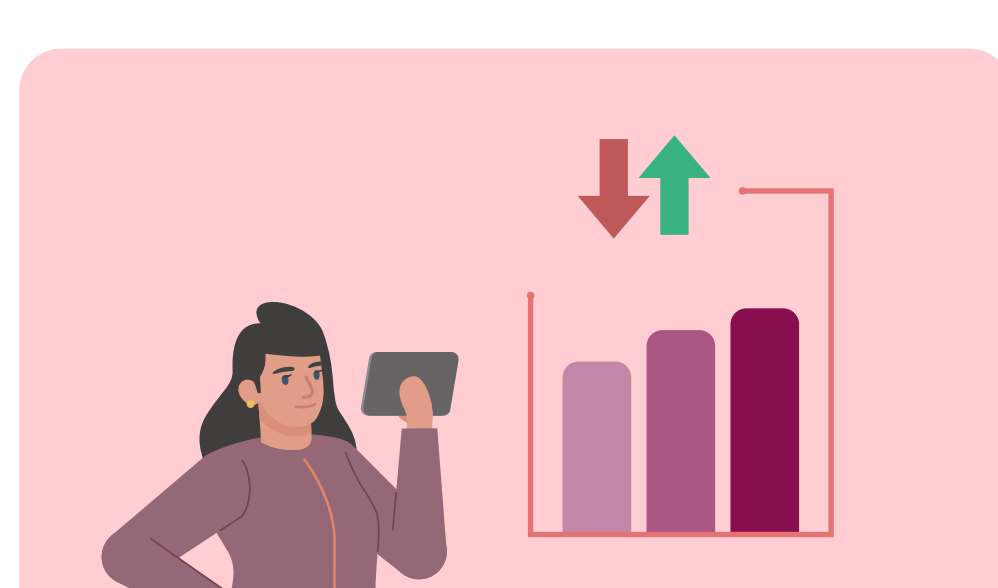

Seamless Integrations

Integrate FSM software with your inventory management and CRM platforms for automatic parts ordering and updated customer records

Data-driven Insights

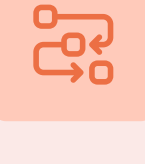

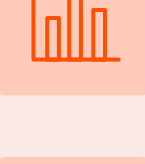

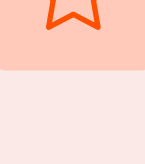

Analyze data on completion rates, repair history, and parts usage to identify potential issues before they become major problems

Comprehensive Reports

Use reports to assess program effectiveness, identify areas for improvement, and adjust your maintenance strategies

5 Reasons Repair Services Need Zuper Experience

-  Reduce downtime and associated costs with **customizable solutions**
-  Extend appliance/equipment lifespan leading to **happier customers**
-  Improve technician productivity and efficiency **with automation**
